To: Flemington Borough Residents Regarding New Recycling Collection Guidelines

Flemington Borough has contracted with LMR Disposal to collect garbage and recycling in the Borough, and the process for recycling collection is changing.

Collection Days: Recycling will be collected on alternate Fridays beginning July 9. During Thanksgiving week an exception will be made: Garbage will be collected on Friday, Nov. 26 and recycling will be collected on Saturday, Nov. 27. **See the calendar below:** Garbage collection is marked by a square and recycling collection is marked by a circle.

Receptacles: LMR Disposal will provide Borough-owned garbage and recycling receptacles for each household. These are on order and will be delivered to residences when they are available. Until then, keep using the cans you have. Once the new receptacles are delivered, LMR will no longer pick up garbage or recycling that is not in the Borough-owned totes. The receptacles are 96-gallon totes on wheels. If residents want a smaller tote, requests can be made at Borough Hall. Residents can mix their recyclables together in the recycling tote. Carts containing items that are dirty, wet, or not recyclable will not be picked up.

What can be recycled: Corrugated cardboard; mixed office and computer paper, newspaper, magazines and junk mail; glass containers; aluminum and steel cans; plastic containers including soda, milk, water and detergent bottles

What cannot be recycled: Appliances; pizza boxes; Styrofoam; plastic bags; items that are dirty and wet

Other Information: Sign up for SwiftReach 911; follow the Historic Borough of Flemington Facebook page; check the Borough website at www.historicflemington.com.
