ORDINANCE NO. 2026-18

AN ORDINANCE AMENDING CHAPTER 7 (TRAFFIC) OF THE MUNICIPAL CODE OF THE BOROUGH OF FLEMINGTON TO AUTHORIZE THE TEMPORARY REVERSAL OF THE DIRECTION OF TRAFFIC ON BLOOMFIELD AVENUE DURING APPROVED SPECIAL EVENTS AND DECLARED EMERGENCIES

WHEREAS, the Borough Council recognizes that certain planned public events and emergency incidents require temporary modifications to normal traffic patterns to promote the safe and efficient movement of vehicles and pedestrians;

WHEREAS, Bloomfield Avenue serves as a primary eastbound one-way roadway between Broad Street and Spring Street;

WHEREAS, during Borough-approved special events and emergency incidents, temporary westbound operation of Bloomfield Avenue would improve traffic dispersal, emergency access, and public safety;

WHEREAS, the Borough desires to authorize the installation and operation of hinged, reversible traffic control devices that can temporarily modify the traffic pattern while preserving the permanent one-way designation during normal operations;

NOW, THEREFORE, BE IT ORDAINED by the Borough Council of the Borough of Flemington, in the County of Hunterdon, State of New Jersey, that Chapter 7 (Traffic) shall be amended as follows:

SECTION I.

Section 7-6.1 is hereby created in Chapter 3 of the municipal code of the Borough of Flemington and shall be entitled "Temporary Reversal of Traffic Flow – Bloomfield Avenue."

SECTION II.

Section 7-6.1.A is hereby created and shall be entitled "Purpose and Authority" and shall contain the following text (all text novel):

Notwithstanding the permanent one-way designation established elsewhere in Chapter 7, the Chief of Police, or the Chief's designee, is authorized to temporarily reverse the direction of travel on Bloomfield Avenue between Broad Street and Spring Street for Borough-approved special events, planned traffic operations, public gatherings, declared emergencies, emergency incidents, or other circumstances where necessary to protect public health, safety, and welfare.

SECTION III.

Section 7-6.1.B is hereby created and shall be entitled "Temporary Traffic Pattern" and shall contain the following text (all text novel):

When activated, traffic shall be permitted to travel westbound from Broad Street to Spring Street for the duration established by the Chief of Police or their designee. Traffic shall not travel past Spring Street towards Main Street.

SECTION IV.

Section 7-6.1.C is hereby created and shall be entitled "Reversible Traffic Control Devices" and shall contain the following text (all text novel):

The Borough may install and deploy MUTCD-compliant hinged traffic control devices or other traffic control devices as deemed appropriate and necessary to facilitate the safe and orderly reversal of traffic flow consistent with the meaning and intent of this provision.

SECTION V.

Section 7-6.1.D is hereby created and shall be entitled "Authorized Personnel" and shall contain the following text (all text novel):

Only members of the Flemington Borough Police Department, Department of Public Works, Office of Emergency Management, or other personnel specifically authorized by the Chief of Police may activate or deactivate the hinged traffic control devices.

SECTION VI.

Section 7-6.1.E is hereby created and shall be entitled "Coordination" and shall contain the following text (all text novel):

The Chief of Police shall coordinate any required approvals with Hunterdon County and the New Jersey Department of Transportation when applicable.

SECTION VII.

Section 7-6.1.F is hereby created and shall be entitled "Enforcement" and shall contain the following text (all text novel):

While activated, motorists shall obey the temporary traffic control devices and the lawful directions of police officers or other authorized personnel. Violations shall be enforceable pursuant to applicable New Jersey law.

SECTION VII. If any part of this ordinance is for any reason held to be invalid, such decision shall not affect the validity of the remaining portions of the ordinance.

SECTION VIII. Should any section, paragraph, sentence, or clause of this ordinance be declared unconstitutional or invalid for any reasons, the remaining portions of this ordinance shall not be affected thereby and shall remain in full force and effect and, to this end, the provisions of this ordinance are hereby declared severable.

SECTION IX. This ordinance shall take effect upon adoption and publication in the manner prescribed by New Jersey general law.

ORDINANCE 2026-16

AN ORDINANCE AMENDING CHAPTER 2 "ADMINISTRATION", SECTION 2-10 "SHADE TREE COMMISSION" OF THE BOROUGH CODE

WHEREAS, the Borough seeks to modernize its Shade Tree Commission administration; and

WHEREAS, the Borough seeks to comply with the model NJDEP Tree Removal – Replacement Ordinance;

NOW, THEREFORE, BE IT ORDAINED by the Mayor and Council of the Borough of Flemington, the County of Hunterdon, that Chapter 2 of the Code of the Borough of Flemington (the "Code"), is hereby amended and supplemented as follows:

Section I. Section 2-10 of the Code, entitled "Shade Tree Commission," is hereby amended to read as follows (additions are shown as thus; deletions are shown as ~~thus~~);

§ 2-10 SHADE TREE COMMISSION

§ 2-10.1. Commission; Personnel; Appointment.

There shall hereby be established a commission known as "the Shade Tree Commission of the Borough of Flemington." The commission shall consist of seven members and two alternate members. The members and alternate members shall be appointed by the Mayor with consent of the Council, shall be residents of the municipality, and shall serve without compensation, except as hereinafter provided.

§ 2-10.2. Establishment and Composition; Terms; First Commission; Subsequent Commissions; Terms

a. There shall be a Shade Tree Commission established in the Borough of Flemington, which shall consist of seven members. Each member shall be a resident of the Borough and be appointed by the Mayor for a five-year term. The terms of all members of the Shade Tree Commission shall expire on December 31, 2020. Thereafter, appointments will be made on a staggered basis and of the members initially appointed, one member shall be appointed to serve for a term of one year, one member shall be appointed to serve a term of two years, one member shall be appointed to serve a term of three years, one member shall be appointed to serve a term of four years, and one member shall be appointed to serve a term of five years. Thereafter, all appointments shall be made for a term of five years

b. The alternate members shall be designated at the time of appointment as "Alternate No. 1" and "Alternate No. 2" and shall serve during the absence or disqualification of any regular member or members. The terms of all alternate members shall expire on December 31, 2020. The initial term of Alternate No. 2 shall be four years and the initial term of Alternate No. 1 shall be five years. The terms of the first alternate members appointed pursuant to this section shall commence on the day of their appointment. An alternate member may participate in discussions of the proceedings but may not vote except in the absence or disqualification of a regular member. A vote shall not be delayed in order that a regular member may vote instead of an alternate member.

§ 2-10.3. Organization.

The commission shall organize within 30 days after the appointment of its total membership for the remainder of the then calendar year, and thereafter annually by the election of one of its members as chairman, and the appointment of a secretary, who need not be a member.

§ 2-10.4. Vacancies.

Any vacancy occurring by reason of the death, resignation or removal of any commissioner shall be filled for the unexpired term, by the authority having power to make the original appointments.

§ 2-10.5. Powers of Commission.

The Shade Tree Commission of the Borough of Flemington shall have power to:

a. Exercise full and exclusive control over the regulation, planting and care of shade and ornamental trees and shrubbery now located, or which may hereafter be planted, in any public highway, park or parkway, except such as are on State or county property unless permission is given by the appropriate authority, including the planting, trimming, spraying, care and protection thereof;

b. Regulate and control the use of the ground surrounding the same, so far as may be necessary for their proper growth, care and protection;

c. Move or require the removal of any tree, or part thereof, dangerous to public safety;

d. Encourage arboriculture;

e. Administer treatment to, or remove, any tree situated upon private property which is believed to harbour a disease or insects readily communicable to neighboring healthy trees in the care of the municipality and enter upon private property for that purpose, with the consent of the owner thereof, provided the suspected condition is first confirmed by certificate issued by or on behalf of the Department of Agriculture.

§ 2-10.6. Cost of Trees and Improvements, Charge and Lien on Property; Exceptions.

Except as hereinafter provided the initial cost of all trees planted by the commission, the cost of planting the same, the cost of the posts and boxes or guards used for the protection thereof, and the cost of the removal of any tree or part thereof dangerous to public safety shall, if the commission shall so determine, in accordance with uniform rules and regulations promulgated for this purpose, be a charge upon the real estate in front of which such tree or trees shall be planted or removed as an improvement thereof. Such cost if it is so determined that it is to be paid by the owner shall, unless paid directly to the commission be certified by it to the collector of taxes of the municipality; shall thereupon become and be a lien upon said real estate, shall be included in the next tax bill rendered to the owner or owners thereof, and be collected in the same manner as other taxes against that property.

The provisions of this section shall not apply to:

a. A planting to replace a tree or trees theretofore planted by the commission;

b. A planting in connection with Arbor Day exercises or other educational demonstration.

§ 2-10.7. Planting and Removal of Trees; Notice and Hearing; Emergencies.

In every case where the property of an abutting owner will be chargeable with the cost of the planting of any shade tree or trees the commission shall give notice of the meeting at which it is proposed to consider said planting by publishing the notice at least once, not less than 20 days before the meeting, in a newspaper circulating in the municipality, or by personal service of a copy of the notice upon the abutting owner at least ten days before the meeting. The notice shall specify the street, streets, or portions thereof, on which such planting is proposed and require all persons who may object thereto to present their objections in writing at

the office of the commission at or before the meeting. Before final action shall be taken all objections so filed shall be considered. The commission shall give reasonable notice of its intention to remove, or cause the removal of, a tree, or part of a tree, dangerous to public safety, unless public safety requires immediate removal, in which case no notice shall be necessary.

§ 2-10.8. Public Improvements Affecting Trees; Consent of Commission; County Park Commissions Unaffected.

No statute giving any person or State, county or municipal board, body or official, power or authority to lay any sidewalk along, or to open, construct, curb or pave any street, or to do any similar act, shall be construed to permit or authorize any interference with or injury to a highway shade tree without the consent of the shade tree commission within whose jurisdiction such tree shall be located. In all cases such commission shall reasonably co-operate with such person, board, body or official for the general public good.

Nothing in this chapter contained shall be held to take away or diminish any of the powers or authority of any county park commission over the trees or shrubbery in any county park or parkway within its jurisdiction, or to give to any other commission or board any power or authority with respect to such trees or shrubbery.

§ 2-10.9. Annual Appropriation; Estimate; Amount.

During the month of December in each year, the shade tree commission shall certify to the governing body of the municipality, the estimated sum necessary for the proper conduct of its work during the ensuing fiscal year, which shall include the sums estimated to be expended for such of the following items as it is anticipated expenditure will be made for; namely,

a. Expenses of commission members in discharging official duties including expenses incident to attendance at professional meetings;

b. Purchase of trees and shrubbery; and

c. Purchase of necessary equipment and materials and the cost of services for the prudent promotion of the work.

The governing body of the municipality shall annually appropriate such sum as it may deem necessary for said purposes.

§ 2-10.10. Penalty; Jurisdiction of Courts; Copy of Ordinance As Evidence.

a. The commission may prescribe a fine for the violation of each of its ordinances in an amount not exceeding $1,500.00 for each violation, and the courts which now or hereafter shall have jurisdiction over actions for the violation of ordinances of the municipality in which the commission has been or shall be appointed shall have jurisdiction in actions for the violation of such ordinances as the commission shall enact.

The ordinances shall be enforced by like proceedings and process and the practice for the enforcement thereof shall be the same as that provided by law for the enforcement of the ordinances of the municipality in which the commission exists.

The property maintenance inspector and/or zoning official authorized by law to serve and execute process in the aforementioned courts shall be the officers to serve and execute any process issued out of any court under this section.

A copy of any ordinance of the commission, certified to under the hand of its secretary, chairman shall be received in any court of this State as full and legal proof of the existence of the ordinance, and that all requirements of law in relation to the ordaining, publishing and making of the same, so as to make it legal and binding, have been complied with, unless the contrary be shown.

b. In addition to the penalties authorized by Subsection a of this §, the commission may require a person who removes or otherwise destroys a tree in violation of a municipal ordinance to pay a replacement assessment to the municipality. The replacement assessment shall be the value of the tree as determined by the appraisal of a trained forester or Certified Tree Expert retained by the commission for that purpose. In lieu of an appraisal, the commission may adopt a formula and schedule based upon the number of square inches contained in a cross section of the trunk of the tree multiplied by a predetermined value per square inch, not to exceed $27.00 per square inch. The square inch cross section shall be calculated from the diameter at breast height and, if there is a multiple stem tree, then each trunk shall be measured and an average shall be determined for the tree. For the purposes of this subsection, "diameter at breast height" shall mean the diameter of the tree taken at a point four and one- half feet above ground level. The commission shall modify the value of the tree based upon its species variety, location and its condition at the time of removal or destruction.

c. Any public utility or cable television company that clears, moves, cuts, or destroys any trees, shrubs, or plants for the purpose of erecting, installing, moving, removing, altering or maintaining any structures or fixtures, necessary for the supply of electric light, heat or power, communication, or cable television services upon any lands in which it has acquired an easement or right-of-way, shall not be subject to any penalty imposed by a commission pursuant to paragraphs a or b of this section. This subsection shall not exempt any public utility or cable television company from any penalty or replacement assessment imposed for negligent actions.

§ 2-10.11. Disposition of Penalties.

All moneys collected in the municipality, either as fines or penalties, for any violation of a rule or regulation of a shade tree commission, or as a charge against real estate, under any provision of this section, shall be forthwith paid over to the municipal officer empowered to be custodian of the funds of the municipality.

§ 2-10.12. No Liability for Death or Injury.

Nothing in this section contained shall be construed to make the shade tree commission or any member thereof, or any volunteer participating in a community forestry program as provided for by Section 4. of P.L. 1996, c. 135 (C.13:1L-17.4), responsible for the death or injury of any person, or for an injury to any property or highway tree or shrub. Liability for any such death or injury shall be governed by the provisions of Section 16 of P.L. 1996, c. 135 (C.59:4-10) and any other relevant provisions of the "New Jersey Tort Claims Act," N.J.S.A. 59:1-1 et seq.

~~§ 2-10.13. Large Tree Preservation.~~

~~a. Statement of Purpose. The Borough of Flemington finds that:~~

~~1. Flemington has an abundance of trees that have benefited citizens for many years, providing protection, shade, and food for wildlife.~~

~~2. Flemington trees have played an important role in the quality of life and the economic value of homes and properties in the Borough.~~

~~3. Flemington trees have acted as purifying systems for the air, and helped to control erosion and flooding through their root systems.~~

~~4. Flemington trees have improved the quality of life in the Borough by providing shade, reducing noise and glare, and providing an essential natural landscape.~~

~~5. Flemington trees have provided valuable energy saving benefits by moderating the effects of heat in summer and cold in winter.~~

~~Therefore, the Borough of Flemington has determined a need to safeguard the community's interest in large trees that comprise the community's natural resources, and to protect these resources from deforestation or indiscriminate or excessive tree removal in an effort to preserve the general welfare of the community.~~ All tree removal activities shall be done in accordance with §1632.1.~~This subsection aims to preserve as many large trees throughout the Borough by requiring property owners to protect and preserve as many large trees as set forth in this subsection.~~

~~b. Definitions.~~

~~LARGE TREE — Shall mean a tree with a caliper of at least ten inches, measured at a point four and one-half feet from the ground.~~

~~SHADE TREE COMMISSION — Shall mean the commission responsible for overseeing this subsection on behalf of the Borough and with the consent of the Borough's Council.~~

~~TREE — Shall mean a woody plant having at least one well-defined stem and a more or less definitely formed crown, usually attaining a height of at least eight feet.~~

~~TREE REMOVAL PERMIT — Shall mean the permit, which must be obtained before any large tree may be removed, as specified in this subsection.~~

~~c. Exemptions. The following activities do not require a tree permit:~~

~~1. The removal of large trees on any approved construction permit or permit to improve real property to the extent specifically authorized in the permit.~~

~~2. The removal of large trees in accordance with a plan approved by the planning board or the board of adjustment, so long as the approval includes a requirement that the applicant replace two trees for each large tree removed with two new trees as provided in this subsection.~~

~~3. The pruning, trimming or maintenance of large trees in a manner which is not harmful to the health of the tree.~~

~~4. The removal of large trees which are diseased, dead, partially or completely fallen by acts of nature, or which endanger public safety.~~

~~d. Tree Removal Permit. A tree removal permit shall be required for all trees designated as large trees, and all trees planted through the Borough Adopt-A-Tree Program, all of which shall be protected from cutting or destruction within the Borough, except as allowed in Subsection c above. It shall be unlawful to cut or otherwise cause the death of any tree having the large tree designation, except as otherwise provided in this subsection, without first having obtained a permit.~~

~~e. Enforcement Authority. The Borough zoning officer shall issue tree removal permits and monitor all work performed under any permit issued pursuant to this subsection. Any person residing, owning property or owning or operating a business in the Borough may request that the shade tree commission examine any tree to determine if that tree should be protected as a large tree.~~

~~The shade tree commission shall prepare, maintain and update when necessary a record of all large trees covered by the provisions of this subsection. Preparation of this record shall be completed within one year of the enactment of this subsection or as soon as practical thereafter. Designation of trees as large trees shall transfer with the sale of any property in the Borough so that the new owner of the property shall be bound by said designation.~~

~~f. Application for Tree Removal Permits. A tree permit shall be obtained for the removal of any tree protected by this subsection by submitting a written application to the Borough zoning official, together with a $10.00 filing fee. The application shall include the applicant's name and address, the consent of the owner of the land upon which the tree(s) is located, and the location on the property of the tree(s) to be removed. The Borough zoning official shall respond within seven days of receipt of a tree~~

~~removal application. Permits shall be valid for a period of three months, and must be displayed prominently at the address where the tree is to be removed. Application forms shall be made available at Borough Hall.~~

~~g. Approval of the Tree Removal Permit. Upon receipt of an application for removal of a large tree the Borough zoning official shall visit and inspect the site and shall approve the permit for those trees that meet one or more of the following criteria: (1) tree removal is necessary to allow reasonable use of the property; (2) tree removal will not adversely affect community benefits as stated in Subsection a., or the property owner plans to replace the tree with a tree not less than two and one-half inch diameter measured at a height of four and one-half feet above the ground and type, which shall be the same species or a species that will provide community benefits as stated in Subsection a.~~

~~The planting of a replacement tree shall be within the property that contained the tree removed or, if this is not possible, elsewhere in the Borough within public property at a site to be determined by the Borough zoning official with the advice but not the consent of the shade tree commission.~~

~~h. Appeal Procedures. Any person may appeal in writing to the Borough Council within 14 days of the written decision of the Borough zoning official approving or denying a tree removal permit, or approving or denying large tree status. The Council shall decide any such appeal based upon the criteria set forth in this subsection.~~

~~i. Penalties. Any person who violates any of the provisions of this subsection shall be subject to a fine of $500.00 for each large tree that has been harmed or destroyed. All fines and other penalties paid shall be placed in an account for the shade tree commission to plant, replace or maintain trees throughout the Borough.~~

ORDINANCE NO. 2026-17

AN ORDINANCE AMENDING
CHAPTER 12 "LAND DEVELOPMENT DEFINITIONS" OF THE BOROUGH CODE, AND CHAPTER 16 "DESIGN AND PERFORMANCE STANDARDS", SECTIONS 1632 "LANDSCAPE STANDARDS" AND SECTION 1632.1 "PUBLIC ART" OF THE BOROUGH CODE

WHEREAS, the Borough seeks to modernize its landscape design and planting regulations; and

WHEREAS, the Borough seeks to comply with the model NJDEP Tree Removal – Replacement Ordinance; and

WHEREAS, the Borough seeks to consolidate the tree removal and replacement standards in Chapter 16 with its landscape standards; and

WHEREAS, the Public Art regulations in Section 1632.1 are relocated to a new section to provide better organization to the Borough Code.

NOW, THEREFORE, BE IT ORDAINED by the Mayor and Council of the Borough of Flemington, the County of Hunterdon, that Chapters 12 and 16 of the Code of the Borough of Flemington (the "Code"), are hereby amended and supplemented as follows:

Section I. Section 1201 of the Code, entitled "Words and Terms Defined," is hereby amended to read as follows (additions are shown as thus; deletions are shown as ~~thus~~);

CRITICAL ROOT RADIUS (CRR)

The zone around the base of a tree where the majority of the root system is found. This zone is calculated by multiplying the diameter at breast height (DBH) of the tree by 1.5 feet. For example: a tree with a 6" DBH would have a CRR = 6" x 1.5' = 9'.

DIAMETER AT BREAST HEIGHT (DBH)

~~The diameter of a tree trunk measured approximately 4 feet above the average ground level at the base of the tree.~~ The diameter of the trunk of a tree generally measured at a point 4 1/2 feet above ground level from the uphill side of the tree. For species of trees where the main trunk divides below the 4 1/2 foot height, the DBH shall be measured at the highest point before any division.

HAZARD TREE

A tree or limbs thereof that meet one or more of the criteria below. Trees that do not meet any of the criteria below and are proposed to be removed solely for development purposes are not hazard trees.

A. Has an infectious disease or insect infestation;

B. Is dead or dying;

C. Obstructs the view of traffic signs or the free passage of pedestrians or vehicles, where pruning attempts have not been effective;

D. Is causing obvious damage to structures (such as building foundations, sidewalks, etc.);

or

E. Is determined to be a threat to public health, safety, and/or welfare.

NATIVE PLANT

A plant that occurs naturally within New Jersey. Also referred to as indigenous plants.

~~PLANTS, INDIGENOUS~~

~~Plants that are native to the Eastern United States and not imported stock from other areas of North America or other continents.~~

PLANTING STRIP

The part of a street right-of-way between the public right-of-way and the portion of the street reserved for vehicular traffic or between the abutting property line and the curb or traveled portion of the street, exclusive of any sidewalk.

STREET TREE

~~A tree in a public place, street, special easement or right-of-way adjoining a street typically large in size when mature.~~ A tree planted in the sidewalk, planting strip, and/or in the public right-of-way adjacent to (or specified distance from) the portion of the street reserved for vehicular traffic. This also includes trees planted in planting strips within the roadway right-of-way, i.e., islands, medians, pedestrian refuges.

TREE

A woody perennial plant, typically having a single stem or trunk growing to a considerable height and bearing lateral branches at some distance from the ground.

TREE CALIPER

The diameter of the trunk of a young tree, measured six inches from the soil line. For young trees whose caliper exceeds four inches, the measurement is taken 12 inches above the soil line.

TREE REMOVAL

To kill or to cause irreparable damage that leads to the decline and/or death of a tree. This includes, but is not limited to, excessive pruning, application of substances that are toxic to the tree, over-mulching or improper mulching, and improper grading and/or soil compaction within the critical root radius around the base of the tree that leads to the decline and/or death of a tree. Removal does not include responsible pruning and maintenance of a tree, or the application of treatments intended to manage invasive species.

Section II. Section 1632 of the Code, entitled "Landscape Standards," is hereby amended to read as follows (additions are shown as thus; deletions are shown as ~~thus~~);

§ 1632.1 LANDSCAPE STANDARDS

A. Every applicant for subdivision or site plan approval shall comply with the following minimum standards, except that, with respect to the alternative design concepts set forth below, the applicant may choose between the concepts or present an alternate design equal or superior to the design concepts in terms of quantity of landscaping materials and suitability to the site and to the proposed development. The approving Board may require additional landscaping, if necessary, to create an appropriate landscaping scheme for the site, given the nature of the site and the proposed development thereof. Where subdivisions only are applied for, the minimum standards shall apply only

to street trees and to common open space and areas proposed to be dedicated to the public.

1. General. Landscape plans shall conform to the following general design principles:

   a. Use landscaping to accent and complement buildings, e.g., groupings of tall trees to break up long, low buildings and lower plantings for taller buildings.

   b. Locate landscaping to provide for climate control, e.g., shade trees on the south to shield the hot summer sun and evergreens on the north side for windbreaks.

   c. Provide for a variety and mixture of landscaping. ~~The variety~~Variety shall consider susceptibility to disease, colors, season, textures, shapes, blossoms, and foliage.

   d. Local soil conditions and water availability shall be considered in the choice of landscaping.

   e. Consider the impact of any proposed landscaping plan at various time intervals so that, e.g., shrubs do not grow and eventually block sight distances or encroach upon road or sidewalks.

   f. All landscape plants shall be typical full specimens conforming to the American Association of Nurserymen Standards and/or Landscape Plans and Specifications for quality and installation.

   g. Assure that no aspect of the landscape design inhibits access to a development by emergency vehicles.

   h. With minor exceptions, all plants shall be native and adaptive to the State of New Jersey, with an emphasis on native plants.

   ~~g.~~i. Landscape design should seek to reduce the need for water, pesticides and chemical fertilizer in planted areas through the use of native and adaptive plants and xeriscaping.

2. Street Trees. Street trees shall be provided for all streets.

   a. Spacing between trees shall be not more than 40 feet on center.

   b. The use of more than one variety of street tree along a roadway ~~shall be provided~~ is encouraged in order to avoid problems ~~to~~ be associated with monoculture.

   c. Trees shall be planted in groupings of similar varieties. Use trees of similar form, height and character along a roadway to promote uniformity and allow for smooth visual transition between species.

   d. Tree variety selection shall be based upon on-site conditions and tree suitability to these conditions. The Street Tree Selection Guide with the approved street tree list shall be followed.

   e. Street trees within the public right-of-way shall be maintained by the property owner abutting the right-of-way. Street trees on public property shall be maintained by the property owner.

   ~~d.~~

STREET TREE SELECTION GUIDE Shade Trees for Street Planting				
Botanical Name	Common Name	Mature Height Tall (more than 40') Medium (30-40') Small (less than 30')	Value as a Street Tree	Comments
Acer campestre	Hedge Maple	Small	Moderate	Globe shaped, urban tolerant
Acer rubrum	Red Maple	Tall	Excellent	Globe shaped, wet site tolerant, invasive roots
A. rubrum 'Columnare'	Columnar Red Maple	Tall	Moderate	Columnar, wet site tolerate, invasive roots
A. rubrum 'October Glory'	October Glory Red Maple	Tall	Excellent	Broad oval shape, wet site tolerant, good fall color
A. rubrum 'Scanlon'	Scanlon Red Maple	Medium	Excellent	Columnar, wet site tolerant, urban intolerant
Acer saccharum	Sugar Maple	Tall	Excellent	Broad oval shape, urban intolerant
A. saccharum 'Columnare'	Columnar Sugar Maple	Tall	Excellent	Columnar, urban intolerant
A. saccharum 'Green Mountain'	Green Mountain Sugar Maple	Tall	Excellent	Broad oval shape, urban intolerant
A. saccharum 'Temple's Upright'	Temple's Upright Sugar Maple	Tall	Moderate	Columnar, urban intolerant
Aesculus carnea 'Briotii'	Ruby Horsechestnut	Medium	Moderate	Globe shaped, red flowers, urban tolerant
Aesculus hippocastanum 'Baumannii'	Double Flowering Horsechestnut	Tall	Moderate	Narrow conical shape, double white flowers, urban tolerant
Carpinus betulus	European Hornbeam	Small	Moderate	Broad oval shape, urban tolerant
Carpinus betulus 'Fastigiata'	Pyramidal European Hornbeam	Medium	Moderate	Columnar shape, urban tolerant
Carpinus caroliniana	American Hornbeam	Small	Moderate	Spreading shape, difficult to transplant
Celtis occidentalis	Common Hackberry	Tall	Moderate	Globe shaped, wet site, dry site, urban tolerant
Cladrastis kentukea (lutea)	Yellowwood	Medium	Moderate	Globe shaped, white flowers in early summer
Fraxinus americana	White Ash	Tall	Excellent	Globe shaped, urban tolerant, spray for borers
Fraxinus pennsylvanica "Marshall's Seedless'	Marshall's Seedless Green Ash	Tall	Excellent	Wet site, urban tolerant, spray for borers

STREET TREE SELECTION GUIDE Shade Trees for Street Planting				
Botanical Name	Common Name	Mature Height Tall (more than 40') Medium (30-40') Small (less than 30')	Value as a Street Tree	Comments
Gleditsia triacanthos inermis 'Shademaster'	Shademaster Thornless Honeylocust	Tall	Moderate	Broad oval shape, mimosa webworm problem, urban tolerant
Gleditsia triacanthos inermis 'Skyline'	Skyline Thornless Honeylocust	Tall	Moderate	Pyramidal, mimosa webworm problem, urban tolerant
Liquidambar styraciflua	American Sweet Gum	Tall	Poor-Moderate	Broad oval shape, good fall color, wet site tolerant, gumballs are litter problem
Magnolia xloebneri 'Merrill'	Dr. Merrill Magnolia	Small	Moderate	Broad oval shape, white flowers, urban tolerant
Magnolia salicifolia	Anise Magnolia	Medium	Excellent	Narrow conical shape, white flowers
Platanus acerifolia	London Planetree	Tall	Moderate	Spreading shape, urban tolerant
Platanus occidentalis	American Sycamore	Tall	Poor	Spreading shape, wet site tolerant, subject to twig blight
Pyrus calleryana 'Chanticleer'	Chanticleer Pear	Medium	Excellent	Broad oval shape, urban tolerant, white flowers, red fall color
Quercus palustris	Pin Oak	Tall	Moderate	Narrow conical, wet site tolerant, lower branches are a problem
Quercus phellos	Willow Oak	Tall	Moderate	Broad oval shape, wet site tolerant, fine texture
Quercus rubra	Red Oak	Tall	Excellent	Spreading shape, urban tolerant
Ulmus americana	American Elm	Tall	Moderate	Vase shaped, resistant to Dutch Elm Disease
Zelkova serrata 'Green Vase'	Japanese Zelkova	Tall	Moderate	Wine glass shaped, wide canopy, resembles elm, dry site tolerant
Zelkova serrata 'Village Green'	Village Green Zelkova	Tall	Excellent	Vase shaped, resembles elm, dry site tolerant

~~Trees shall be a minimum of 3 inches to 3 1/2 inches caliper (based upon American Nurserymen Standards). Within sight triangles, a single tree may be permitted only with site-specific approval of the Borough Engineer. Such trees, including those at driveways, shall be of such size as will enable them to be immediately pruned up to 7 feet branching height upon planting.~~

3. Cul-de-sac. Cul-de-sac islands provide an opportunity to create visual interest, soften the harshness of a large paved area, increase groundwater recharge, screen headlight glare into residences, and preserve existing vegetation.

   a. All plant material shall exhibit a mature height under 30 inches or above 7 feet with no more than three trunks in order to allow for proper visibility.

   b. All plants shall be tolerant of harsh, dry roadswide conditions.

   c. Ground cover plantings shall be consistent with the degree of maintenance expected for the culs-de-sac and of sufficient density to entirely cover the ground plane.

4. Stormwater. Stormwater management areas include retention and detention basins, drainage ditches and swales, and wetland areas. Sensitively-designed basins and swales can benefit the health, welfare and safety of Borough residents. This may involve integration of these areas as aesthetic landscape features, naturalized wetland areas, or active and passive recreation areas, in addition to their stormwater management function.

   a. Stormwater ~~Detention Areas.~~Facilities.

      (1) ~~The detention area~~Stormwater facilities, such as but not limited to bioretention basins, detention basins, and vegetative filter strips shall be graded creatively to blend into the surrounding landscape and imitate a natural depression with an irregular edge. This shall include gentle berming and avoiding linear, geometric basins.

      ~~(2) The quantity of trees to be planted on the interior of the basins shall be equal to the number of trees that would be necessary to cover the entire area, based upon a 20 foot by 20 foot grid to the high water line or outflow elevation. Of this number 10 percent shall be 2-2.5 inches caliper, 20 percent shall be 1-2 inches caliper, and 70 percent shall be 6-8 feet height whips. The trees shall be planted in groves and spaced 5 feet to 15 feet on center.~~

      ~~(3)~~(2) Stormwater facilities shall be planted with trees and shrubs, both along the perimeter area and within the facility, to the extent permitted by Chapter 21, Stormwater Management, of the Borough Code. The ground plane shall be seeded with a naturalization, wildflower and/or wet meadow grass mix. The facility shall have a natural planting design that includes a wide variety of species. ~~The specific blend shall be approved by the Borough Landscape Architect.~~

      ~~(4) All woody and herbaceous plants shall be species indigenous to the area and/ or tolerant to typical wet/dry floodplain conditions.~~

~~TREES AND SHRUBS RECOMMENDED FOR WET SITES~~	
~~Amelanchier alleghiensis~~	~~Alleghany Serviceberry~~
~~Viburnum recognitum~~	~~Arrowwood Viburnum~~
~~Aronia melanocarpa~~	~~Black Chokeberry~~
~~Nyssa sylvatica~~	~~Black Gum~~

~~Salixiinigra~~	~~Black Willow~~
~~Acer negundo~~	~~Boxelder~~
~~Colphalanthus occidentalis~~	~~Buttonbush~~
~~Sambucus Canadensis~~	~~Elderberry~~
~~Betula populifolia~~	~~Gray Birch~~
~~Fraxinus pennsyanicum~~	~~Green Ash~~
~~Vaccinium corymbosium~~	~~Highbush Blueberry~~
~~Ilex glabra~~	~~Inkberry Holly~~
~~Quercus palustris~~	~~Pin Oak~~
~~Salix~~	~~Pussy Willow~~
~~Aronia arbutifolia~~	~~Red Chokeberry~~
~~Acer rubrum~~	~~Red Maple~~
~~Cornus~~	~~Red Twig Dogwood~~
~~Betula nigra~~	~~River Birch~~
~~Amelanchier canadensis~~	~~Shadblow Serviceberry~~
~~Cornus amomum~~	~~Silky Dogwood~~
~~Acer saccharinum~~	~~Silver Maple~~
~~Lindera benzoin~~	~~Spicebush~~
~~Salix~~	~~Streamco Willow~~
~~Rhododendron viscosum~~	~~Swamp Azalea~~
~~Rosa palustris~~	~~Swamp Rose~~
~~Quercus bicolor~~	~~Swamp White Oak~~
~~Magnolia virginoana~~	~~Sweetbay magnolia~~
~~Liquidambar styraciflora~~	~~Sweetgum~~
~~Clethra alnifolia~~	~~Sweet Pepperbush~~
~~Platanus occidentalis~~	~~Sycamore~~
~~Itea virginica~~	~~Virginia Sweetspire~~
~~Ilex verticillata~~	~~Winterberry Holly~~
~~Alnus serrulata~~	~~Smooth Adler~~
~~Lindera benzoin~~	~~Spicebush~~
~~Salix~~	~~Streamco Willow~~
~~Rhododendron viscosum~~	~~Swamp Azalea~~

~~Rosa palustris~~	~~Swamp Rose~~
~~Quercus bicolor~~	~~Swamp White Oak~~
~~Magnolia virginoana~~	~~Sweetbay magnolia~~
~~Liquidambar styraciflora~~	~~Sweetgum~~
~~Clethra alnifolia~~	~~Sweet Pepperbush~~
~~Platanus occidentalis~~	~~Sycamore~~
~~Itea virginica~~	~~Virginia Sweetspire~~
~~Ilex verticillata~~	~~Winterberry Holly~~

~~(5)~~(3) Planting shall not be located within 10 feet of low flow channels to allow for maintenance.

~~(6) The perimeter area (slopes above the high water line) shall include shade trees (approximately 60/1000 linear feet), evergreen trees (approximately 30 ornamental trees and shrubs screening drainage structures and creating visual interests.~~

~~(7)~~(4) Provisions for emergency access as well as general maintenance of the basins shall be reviewed by the Borough Engineer. Plantings shall be designed to disguise yet not hinder vehicular access.

~~(8)~~(5) Plantings are not permitted upon any dikes associated~~s~~ with a detention basin unless approved by the Borough Engineer.

~~b.~~(6) Stormwater Retention Areas - Open Space/Recreation Features. This landscape treatment can take on a variety of landscape forms, from formal reflecting pools and canals or entry fountain features to natural park-like lakes and ravines.

~~(1)~~(a) Water fountains/features are encouraged ~~in the design of research and developments.~~.

~~(2)~~(b) The ~~waters~~water's edge shall be easily maintained and stable. Possible treatments might include rip-rap, stone walls, natural plantings, decking and bulkheads.

~~(3)~~(c) The planting of the perimeter of the feature shall accentuate views and interest and integrate pedestrian paths, sitting areas, and other uses.

(d) Plantings shall include formal or informally-massed deciduous and evergreen trees and shrubs to screen and frame views with ornamental trees, shrubs and grasses used for visual interest or special effects. A continuous landscape area shall be provided.

~~(4)~~(e) If used as a recreational feature, the connection to the water must be addressed and controlled. The types of uses shall be specified and the plantings and pedestrian spaces shall be integrated with these uses.

~~(5)~~(f) Plants with pervasive root systems shall not be located where they may cause damage to drainage pipes or other underground utilities.

~~(6)~~(g) All engineered basin structures shall be designed to blend into the landscape in terms of construction materials, color, grading and planting.

5. Open Space. Common or public open space provided as a part of any cluster development shall be landscaped in one of the following ways, depending upon the intent of the use for the open space.

   a. Preservation of Open Space. This treatment is appropriate in areas adjacent to and inclusive of natural amenities to be preserved, such as wooded areas, water bodies; streams and wetlands, as well as other undevelopable areas

      The following standards shall apply:

      (1) Use open space to preserve existing natural amenities during site planning.

      (2) Provide pedestrian walkways and bridges as necessary to connect to open space on adjacent tracts of land.

      (3) Cleared areas shall be renaturalized where appropriate.

      ~~(4) The planting quantities and sizes for renaturalized areas shall be as per renaturalization standards.~~

      ~~(5)~~(4) The ground plane shall be seeded with a naturalization wildflower and/or meadow grass mix. ~~The specific blend shall be approved by the Borough Landscape Architect.~~

   b. Recreation Open Space. Recreational open space includes public and private lands provided for active recreation and passive recreation and as additions to park lands. It can take on many forms, from a tot lot or tennis and swimming complex in a residential development to an English landscape garden in an office development. The landscape treatment of these areas shall address safety, visual interest, microclimate and use.

      The following standards shall apply:

      (1) The proposed use of all open space areas shall be indicated and comply with Borough ordinances.

      (2) Open space in commercial, ~~office~~ residential or similar developments shall include sitting and outdoor eating areas. Provisions for other active and passive recreation facilities are~~is~~ encouraged.

      (3) Grading and plantings of the recreation area shall remain consistent with the overall landscape design. The landscape design shall consist of massed deciduous and evergreen trees and berms to create spaces and views and ornamental trees and shrub masses for visual variety, interest and detail.

      ~~(4) Plants shall be provided in a mix of sizes with shade trees averaging 2-2.5 inches caliper, ornamental and evergreen trees averaging 6-8 feet in height and shrubs 24-36 inches height.~~

      ~~(5) In general, plants shall be provided at the following rate:~~

         ~~(a) Shade trees - 15 per acre~~

         ~~(b) Evergreen Trees - 5 per acre~~

         ~~(c) Flowering Shrubs - 3 per acre~~

         ~~(d) Shrubs - 20 per acre~~

            ~~The above quantities do not include plants necessary to achieve screening, which shall be provided.~~

~~(6) Irrigation of all open space/planted areas within non- residential developments shall be provided.~~

~~(7) All plants shall be tolerant of specific site conditions, which shall be indigenous species. Exotic, invasive plant species are not permitted.~~

~~(8)~~(4) Suggested improvements for residential recreation open space areas include but are not limited to a tot lot (play structure with slide and a separate swing set), an open air shelter, an open lawn area for open field play, pedestrian pathways, and benches. ~~Other improvements shall be provided as required by ordinance based upon population.~~

~~(9)~~(5) The adjacent residences shall be partially screened from play areas using berms, ~~and~~ plantings and/or fencing.

~~(10)~~(6) If a recreation facility fronts onto a roadway, a post and rail fence or other protective measures may be integrated to provide protection and separation. The adjacent street tree planting shall be continued along this area, and any reverse frontage buffer planting shall be integrated with open space planting.

~~(11) All open space should optimally be located centrally within a development. In large developments, several smaller facilities may be appropriate. Adequate access from buildings, roadways, and other open space areas shall be provided. Pedestrian easements between lots, connecting to open space areas in another development or a public facility, shall be provided.~~

6. Buffers. Landscaping buffers are areas provided to minimize and screen any adverse impacts or nuisances on a site or from any adjacent area. Included within any landscape buffer area shall be a landscape strip consisting of trees, conifers, shrubs, berms, and if appropriate, fences or walls and providing a completely planted visual barrier. In areas of less than 25 feet width, the provisions of the windbreak/heavy buffer requirements shall be followed.

   a. Nonconforming Use Buffer. These buffers shall be provided where a residential zone abuts an area currently used or zoned for a different or higher intensity use. The following landscape treatment shall be provided to assure complete visual screening.

      (1) Provide a buffer area as per zoning ordinance yard/setback requirements.

      (2) Preserve existing trees within the provided landscape buffer area. If existing vegetation is insufficient, the landscape strip shall be supplemented with new understory plantings of shade-tolerant coniferous and ornamental trees in naturalistic groupings in order to provide a complete visual screen.

      (3) Areas void of existing vegetation shall receive landscape treatment including berming and planting consisting of groupings of predominantly evergreen trees, with deciduous and ornamental trees and shrubs for visual interest and variety.

      (4) Berming shall be 2-8 feet in height and meander in a naturalistic manner without adversely affecting natural drainage.

      (5) Planting shall consist of evergreen trees ~~of minimum height 6-8 feet planted 10 feet on center, shade trees 2 1/2-3 inches caliper, flowering tree 4-5 feet height and shrubs 2 feet high, planted~~ in naturalistic groupings of mixed plant varieties and sizes.

   b. Reverse Frontage Buffer. Reverse frontage screening shall be required where residential units and/or lots back onto any arterial or major collector street. The following landscape treatments shall be provided in order to screen private residential spaces from the roadway.

(1) Provide a continuous landscape/sidewalk easement or open space strip of not less than 50 feet width.

(2) Preserve existing trees within the provided landscape buffer area. Supplement understory with shade tolerant naturalistic massed plantings of evergreen and ornamental trees in order to complete screening of residences. Meander sidewalk into new plantings and, as necessary, to preserve existing trees.

c. Filtered Buffer. Filtered screening shall be required around the perimeter of parking areas and where interior roads run parallel with other roads, parking areas, or the perimeter of a site in order to screen unsafe distractions and avoid confusion.

The following standards shall apply:

(1) Provide landscape buffer area of 25 feet in width or as per zoning ordinance front yard requirements, whichever is greater.

(2) Preserve existing trees within the landscape buffer area. If existing vegetation is insufficient, the landscape strip shall be supplemented with new understory plantings of shade-tolerant coniferous and ornamental trees in naturalistic groupings.

(3) In areas of necessary disturbance, existing quality vegetation shall be relocated for use in other areas. Detailed plans for tree removal and relocation must be made on plans and in the field (tag trees) for review and inspection.

(4) The landscape design shall provide shade for parking areas and evergreen and ornamental trees to screen nuisances and emphasize appropriate views.

(5) All plants shall be tolerant of harsh roadside conditions.

(6) If a 25 feet landscape strip cannot be provided, a row of evergreen trees or a combination of a low wall and berm with planting may be required.

d. Windbreak/Heavy Screening. Windbreak screening shall be required where necessary to provide windbreak or to stop windborne debris from leaving a site. This type of screening may also be required in undersized buffer areas or around outdoor storage facilities. The following standards shall apply:

(1) Provide a landscape strip consisting of a double staggered row of evergreen trees of 6-8 feet height spaced 8 feet on center.

(2) If a landscape buffer area is less than 10 feet wide, or windborne debris is produced, then a fence may be required in addition to planting.

(3) All outdoor storage facilities shall be screened with a landscape strip. If the strip is less than 10 feet wide, a fence shall be required.

(4) If a fence is required, it shall be 6 feet high and of a design consistent with the architecture of the principal building. Planting shall be included in any fencing plan.

e. Parking Areas. The objectives of the landscape architectural treatment of all parking areas shall be to provide for safe and convenient movement of vehicles, to limit pedestrian/vehicular conflicts, to limit paved areas, to provide for screening from public right-of-way and buildings, to soften the overall visual impact of parking lots, and to provide shade and reduce heat island effects.

(1) Large parking lots shall be subdivided into modules of 10-12 spaces on a side. Separation of modules should be achieved by a landscape buffer area and strip of 10 feet width. Integrating pedestrian circulation into these strips should be considered.

(2) Trees within the parking areas shall be provided at a minimum rate of 1 tree per 3 parking spaces, except where the normal spread of the tree exceeds 30 feet. Preservation or relocation of existing trees greater than 5 inches in caliper is encouraged to meet this requirement. Landscape buffer or parking area perimeter plantings do not satisfy this requirement. Any parking area in a front yard or within clear view from the public right-of- way shall be screened from view by a landscape buffer area.

(3) Parking areas shall be screened from interior drives using evergreen, deciduous and flowering trees and shrubs to create a continuous landscape strip of 10 feet minimum width. Consider integration of pedestrian walkways within these strips.

~~(4) Plant sizes shall be a minimum 2.5-3 inch caliper for shade trees, 5-6 feet height for evergreen and ornamental trees and 2 feet height for shrubs.~~

~~(5)~~(4) Parking lot lighting should be sited within landscape islands. However, trees shall not hinder safe lighting coverage. Therefore, varieties must be considered. Shade trees should be used so as to reduce glare to adjacent properties, buildings and roadways.

~~(6)~~(5) Pedestrian and vehicular conflicts shall be minimized through design, yet, when necessary, clearly indicated by change of paving and/or plant material.

7. Amenities/Resources. The objectives of landscape architectural treatment of sites inclusive of historic resources and natural amenities shall be to preserve and enhance such amenities for present and future residents. Historic resources and natural amenities are areas of unique landscape character. This may include, but is not limited to, bodies of water, streams, wetlands, windbreaks, groves of trees, hedge rows, orchards, unique vistas, farmsteads, villages and historic structures and landmarks. Land developments in the Borough shall be designed to preserve and utilize these amenities as features. The architectural, site plan and landscape architectural design shall utilize these amenities for design themes, preserving their heritage and enhancing their significance.

8. Provisions Applicable to Site Plans and Subdivisions.

   a. Utilize the uniqueness of the existing bodies of water, groves of trees, hedge rows, historic structures and landmarks, and farmsteads within the site plan as features.

   b. Respect the historic value and character of the villages and hamlets which exist in the Borough. Development within these areas shall conserve their individual character.

   c. Provide landscaping as required, integrated with existing vegetation or historic landscape themes.

   d. When appropriate, the development of historical markers or displays in coordination/agreement with the Historic Preservation Commission shall be required.

   e. Use of native plants and xeriscaping is encouraged in order to reduce the need for water, pesticides and chemical fertilizer in planted areas.

9. Planting Requirements and Landscape Maintenance.

   a. All material and planting details shall conform to the latest version of the American Standard for Nursery Stock.

   b. All plant material shall be insect and disease-free and in good condition at time of planting.

   c. A landscape management/ maintenance specification shall be provided in conjunction with all approved subdivisions as to street trees, common open space and areas to be dedicated

to the public and all approved site plans.

~~f.~~d. All plantings shall be maintained in an attractive and presentable condition free of weeds, refuse and debris, and shall be continuously maintained in a sound health and vigorous growing condition, free of plant disease and insects, per the final landscape plan.

e. Landscaping shall be maintained as approved on the site plan or a permit issued pursuant to this Chapter, including but not limited to quantity and species of trees, shrubs and other plantings. All dead, diseased, missing plant material shall be replaced. Such replacements shall be resolved within four weeks from time of notification, weather permitting.

f. Street trees within the public right-of-way shall be maintained by the property owner abutting the right-of-way. Street trees on public property shall be maintained by the property owner.

~~g.~~

~~9.~~10. Water Conservation. All permanent sprinkler and irrigation systems installed on or after the adoption date of this Ordinance are required to include automatic rain sensors which prevent watering during and shortly after precipitation.

~~10.~~11. Tree Planting Alternatives.

a. In the event that relief is granted for the number of street trees or the number of trees within a parking lot, the Planning Board may require a payment in lieu of planting as set forth herein.

12. Planting Standards

a. Any tree to be replanted, replaced or planted new shall adhere to the following size and planting standards;

(1) Shade Trees shall have a minimum of 2.5 inches in caliper size at the time of planting.

(2) Evergreen Trees shall have a minimum height of 6 feet at the time of planting.

b. Any shrub to be replanted, replaced or planted new shall adhere to the following size and planting standards

(1) Upright shrubs shall have a minimum height of 2.5 feet at the time of planting.

(2) Spreading shrubs shall have a minimum height of 2 feet at the time of planting.

~~a.~~

~~11. Tree Replacement Alternatives.~~

~~All required trees shall be planted on the site in compliance with Section 1632, Landscaping Standards. In the event relief shall be requested by the applicant based upon practical physical difficulties and undue hardship related to the condition of the site, the Board shall solicit comments and recommendations of the Borough Engineer and Borough Planner in determining whether the relief requested by the applicant shall be granted.~~

~~In lieu of planting the required trees, the Board may permit the applicant to make an in lieu of payment to be deposited in the Borough of Flemington Tree Fund as established by this chapter. The contribution, in lieu of planting the trees, shall be $550.00 for each tree and shall be deposited in the Borough Tree Fund prior to the Borough issuing any building permits for the development.~~

~~12.1. Tree Fund.~~

~~There shall be established a Borough Tree Fund for the purposes set forth in this chapter.~~

~~a. All funds collected from an applicant, as a contribution in lieu of planting trees shall be deposited in a dedicated account clearly designated as the Borough of Flemington Tree Fund. All funds so deposited shall be used exclusively for the planting of trees. This fund may be used to plant trees on private property locations facing a street, public property and rights-of-way, including but not limited to public parks, public schools, and public buildings.~~

~~b.~~a. ~~The Tree Fund shall be administered by the Shade Tree Commission, who shall report to the Borough Council on an annual basis detailing the use of the fund.~~

B. Plant Selection.

1. With minor exceptions, all species of plants and trees shall be native or adapted to the State of New Jersey with an emphasis on native plants.

2. Any invasive species to The State of New Jersey are prohibited. A full list of invasive species is currently maintained by the New Jersey Department of Environmental Protection.

3. The following list of shade trees shall be utilized for street trees, buffers and other appropriate planting purposes. Landscape designs shall also incorporate ornamental trees, evergreen trees, shrubs, and grasses as appropriate and as may be specified in the Borough Code.

SHADE ~~STREET~~ TREE SELECTION GUIDE **Shade Trees for Street Planting**				
Botanical Name	**Common Name**	**Mature Height** **Tall (more than 40')** **Medium (30-40')** **Small (less than 30')**	**Value as a Street Tree**	**Comments**
Acer campestre	Hedge Maple	Small	Moderate	Globe shaped, urban tolerant
Acer rubrum	Red Maple	Tall	Excellent	Globe shaped; wet site tolerant, invasive roots
A. rubrum 'Columnare'	Columnar Red Maple	Tall	Moderate	Columnar, wet site toleratant, invasive roots
A. rubrum 'October Glory'	October Glory Red Maple	Tall	Excellent	Broad oval shape, wet site tolerant, good fall color
A. rubrum 'Scanlon'	Scanlon Red Maple	Medium	Excellent	Columnar, wet site tolerant, urban intolerant
Acer saccharum	Sugar Maple	Tall	Excellent	Broad oval shape, urban intolerant
A. saccharum 'Columnare'	Columnar Sugar Maple	Tall	Excellent	Columnar, urban intolerant
A. saccharum 'Green Mountain'	Green Mountain Sugar Maple	Tall	Excellent	Broad oval shape, urban intolerant
A. saccharum 'Temple's Upright'	Temple's Upright Sugar Maple	Tall	Moderate	Columnar, urban intolerant
Aesculus carnea 'Brioti'	Ruby Horsechestnut	Medium	Moderate	Globe shaped, red flowers, urban tolerant

SHADE ~~STREET~~ TREE SELECTION GUIDE Shade Trees for Street Planting				
Botanical Name	**Common Name**	**Mature Height Tall (more than 40') Medium (30-40') Small (less than 30')**	**Value as a Street Tree**	**Comments**
Aesculus hippocastanum 'Baumanni'	Double Flowering Horsechestnut	Tall	Moderate	Narrow conical shape, double white flowers, urban tolerant
Carpinus betulus	European Hornbeam	Small	Moderate	Broad oval shape, urban tolerant
Carpinus betulus 'Fastigiata'	Pyramidal European Hornbeam	Medium	Moderate	Columnar shape, urban tolerant
Carpinus caroliniana	American Hornbeam	Small	Moderate	Spreading shape, difficult to transplant
Celtis occidentalis	Common Hackberry	Tall	Moderate	Globe shaped, wet site, dry site, urban tolerant
Cladrastis kentukea (lutea)	Yellowwood	Medium	Moderate	Globe shaped, white flowers in early summer
~~Fraxinus americana~~	~~White Ash~~	~~Tall~~	~~Excellent~~	~~Globe shaped, urban tolerant, spray for borers~~
~~Fraxinus pennsylvanica "Marshall's Seedless'~~	~~Marshall's Seedless Green Ash~~	~~Tall~~	~~Excellent~~	~~Wet site, urban tolerant, spray for borers~~
Gleditsia triacanthos inermis 'Shademaster'	Shademaster Thornless Honeylocust	Tall	Moderate	Broad oval shape, mimosa webworm problem, urban tolerant
Gleditsia triacanthos inermis 'Skyline'	Skyline Thornless Honeylocust	Tall	Moderate	Pyramidal, mimosa webworm problem, urban tolerant
Liquidambar styraciflua	American Sweet Gum	Tall	Poor-Moderate	Broad oval shape, good fall color, wet site tolerant, gumballs are litter problem
Magnolia xloebneri 'Merrill'	Dr. Merrill Magnolia	Small	Moderate	Broad oval shape, white flowers, urban tolerant
Magnolia salicifolia	Anise Magnolia	Medium	Excellent	Narrow conical shape, white flowers

Magnolia virginiana	Sweetbay Magnolia
Liquidambar styraciflua	Sweetgum
Clethra alnifolia	Sweet Pepperbush
Platanus occidentalis	Sycamore
Itea virginica	Virginia Sweetspire
Ilex verticillata	Winterberry Holly

C. Tree Fund.

There shall be established a Borough Tree Fund for the purposes set forth in this chapter.

1. All funds collected from an applicant, as a contribution in lieu of planting trees shall be deposited in a dedicated account clearly designated as the Borough of Flemington Tree Fund. All funds so deposited shall be used exclusively for the planting of trees. This fund may be used to plant trees on private property locations facing a street, public property and rights-of-way, including but not limited to public parks, public schools, and public buildings.

~~1~~3.2. The Tree Fund shall be administered by the Shade Tree Commission, who shall report to the Borough Council on an annual basis detailing the use of the fund.

§ 1632.2 TREE REMOVAL AND REPLACEMENT

A. Purpose. A chapter to establish requirements for tree removal and replacement in the Borough of Flemington to reduce soil erosion and pollutant runoff, promote infiltration of rainwater into the soil, and protect the environment, public health, safety, and welfare.

B. Definitions.

For the purpose of this chapter, the following terms, phrases, words, and their derivations shall have the meanings stated herein unless their use in the text of this chapter clearly demonstrates a different meaning. When consistent with the context, words used in the present tense include the future, words used in the plural number include the singular number, and words used in the singular number include the plural number. The use of the word "shall" means the requirement is always mandatory and not merely directory. See also Chapter 12, Land Development Definitions.

APPLICANT

Any "person," as defined below, who applies for approval to remove trees regulated under this

chapter.

PERSON

Any individual, resident, corporation, utility, company, partnership, firm, or association.

RESIDENT

An individual who resides on the residential property or contractor hired by the individual who resides on the residential property where a tree(s) regulated by this chapter is removed or proposed to be removed.

SHADE TREE COMMISSION

Shall mean the commission responsible for overseeing this subsection on behalf of the Borough and with the consent of the Borough's Council.

C. The Borough of Flemington finds that:

1. Flemington has an abundance of trees that have benefited citizens for many years, providing protection, shade and food for wildlife

2. Flemington trees have played an important role in the quality of life and the economic value of homes and properties in the Borough.

3. Flemington trees have acted as purifying systems for the air, and helped to control erosion and flooding through their root systems.

4. Flemington trees have improved the quality of life in the Borough by providing shade, reducing noise and glare, and providing an essential natural landscape.

5. Flemington trees have provided valuable energy saving benefits by moderating the effects of heat in summer and cold in winter.

6. Therefore, the Borough of Flemington has determined a need to safeguard the community's interest in trees that comprise the community's natural resources, and to protect these resources from deforestation or indiscriminate or excessive tree removal in an effort to preserve the general welfare of the community. All tree removal activities shall be done in accordance with this section.

D. Application Process & Permitting.

1. Any person seeking to or planning to remove a street tree, as defined as tree removal, or any tree with DBH of six inches or more on their property, shall submit a Tree Removal Permit Application to the Code Enforcement Officer. No tree shall be removed until the Borough has reviewed and approved the removal.

2. The application fee for a Tree Removal Permit not associated with an application for site plan or subdivision approval shall be $50.00. Application fees for tree removal subject to a site plan or subdivision application shall not apply.

3. Permits granted for the removal of street tree(s), as defined as tree removal, or any tree(s) with DBH of six inches or more on their property, shall run with the land and shall remain in force and effect for the following periods of time, and not thereafter. Once the permit has expired, a new application must be submitted for review and approval.

   a. If granted for a lot or parcel of land which no construction permit is required: one year from the date of issuance.

   b. If granted for a lot or parcel of land for which a construction permit is required, but for which no subdivision or site plan approval is required by the Borough's Planning Board: until the expiration of the construction permit granted with such tree removal permit.

c. If granted for a lot or parcel of land in connection with a site plan or subdivision approval, until expiration of such approval.

E. Tree replacement requirements:

1. Any person who removes one or more street tree(s), as defined as tree removal, or any tree with DBH of six inches or more on their property, unless otherwise exempted under § 1632.2(F), shall be subject to the requirements of the Tree Replacement Requirements Table below.

2. Replacement tree(s) shall:

   a. Be replaced within any area on the premises the removal took place. Street Trees shall be replaced in kind within the planting strip of the Right of Way;

   b. Be planted in accordance with the applicable planting standards set forth in §1632.1 and §1632.2.

   c. Be selected from the approved planting lists within §1632.1, or shall be approved by the Borough Shade Tree Commission.

3. All replacement plantings shall be subject to the following diversity requirements:

   a. Where up to two replacement trees are provided, there is no diversity requirement.

   b. Where at least three and up to five replacement trees are provided, not more than 2/3 of such replacement trees shall be of any one species.

   c. Where six or more replacement trees are provided, not more than 1/2 of such replacement trees shall be of any one species.

4. Replacement trees shall be planted within 12 months of the date of removal of the original tree(s) or at an alternative date specified by the Borough;

5. Replacement trees shall be monitored by the applicant for a period of two years to ensure their survival and shall be replaced as needed within 12 months; and

6. Replacement trees shall not be planted in temporary containers or pots, as these do not count towards tree replacement requirements.

7. Replacement trees shall be inspected by the Code Enforcement Officer to confirm plant health and compliance with the requirements herein.

8. Replacement Tree Requirements.

Tree Replacement Requirements Table			
Category	Tree Removed (DBH)	Tree Replacement Criteria	Fee in Lieu of Planting per Removed Tree
1	DBH of 2.5" (for street trees) or 6" (for non-street trees) to 12.99"	Replant 1 tree with a minimum tree caliper of 1.5" for each tree removed	$350

2	DBH of 13" to 22.99"	Replant 2 trees with minimum tree calipers of 1.5" for each tree removed	$700
3	DBH of 23" to 32.99"	Replant 3 trees with minimum tree calipers of 1.5" for each tree removed	$1,050
4	DBH of 33" or greater	Replant 4 trees with minimum tree calipers of 1.5" for each tree removed	$1,400

9. Replacement Tree Selection and Schedule.

   a. Trees selected from §1632.1 shall constitute as 1.00 replacement trees.

   b. Evergreen trees shall constitute as 0.75 replacement trees.

   c. Arborvitae and other evergreen shrubs at least six feet tall at time of planting shall constitute as 0.25 replacement trees.

   d. Saplings shall constitute as 0.05 replacement trees.

   e. Individual values that result in a fractional number as calculated above shall be rounded to the nearest whole number.

   f. At least 75% of the total value of replacement trees as calculated above shall consist of trees selected from §1632.1

10. Replacement alternatives.

   a. If the Borough determines that some or all required replacement trees cannot be planted on the property where the tree removal activity occurred, then the applicant shall do one of the following:

      (1) Plant replacement trees in a separate area(s) approved by the Borough.

      (2) Provide payment to the Borough Tree Fund the sum of $350 per replacement tree not planted on the property or in a separate area(s) approved by the Borough where the tree removal activity occurred, to be used by the Shade Tree Commission for tree planting and continued maintenance of the trees.

F. Exemptions.

1. All persons shall comply with the tree replacement standard outlined above, except in the cases detailed below. Proper justification shall be provided, in writing, to the Borough by all persons claiming an exemption. Trees proposed to be removed on a lot half an acre or less need only submit photo documentation showing the state and condition of the tree(s) in question. Any property containing more than half an acre shall provide justification by way of a report and/or survey plan of the trees to be removed prepared by a Licensed Professional Arborist or Tree Expert in the State of New Jersey.

2. Residents who remove fewer than three (3) trees that fall into Category 1, 2, or 3 of the Tree Replacement Requirements Table within a rolling five-year period shall be exempt from the tree-replacement and Fee in Lieu of Planting requirements for those trees.

   a. This exemption shall not relieve the resident from submitting a Tree Removal Permit application, obtaining Borough approval before removal, or paying the applicable application fee.

3. Tree farms in active operation, nurseries, fruit orchards, and garden centers.

4. Properties used for the practice of silviculture under an approved forest stewardship or woodland management plan that is active and on file with the Borough.

5. Any trees removed as part of a municipal or state decommissioning plan. This exemption only includes trees planted as part of the construction and predetermined to be removed in the decommissioning plan.

6. Any trees removed pursuant to a New Jersey Department of Environmental Protection (NJDEP) or United States Environmental Protection Agency (EPA) approved environmental clean-up, or NJDEP approved habitat enhancement plan.

7. Approved game management practices, as recommended by the State of New Jersey Department of Environmental Protection, Division of Fish, Game and Wildlife.

8. Unless in the case of imminent threat of danger exists to persons or property, an application to remove hazard trees shall be filed prior to their removal. In the event of imminent danger, a person seeking to remove hazard trees shall document that such tree meets the definition of "hazard tree" contained herein as well as such hazardous conditions which warrants the immediate removal without filing the application pursuant to this section. Hazard trees may be confirmed by the Code Enforcement Officer; however, the Code Enforcement Officer may require certification by a certified arborist or Licensed Tree Expert (LTE) that the tree(s) in question meets the definition of a "hazard tree" as defined herein.

   a. Trees deemed hazard trees may be removed with no fee in lieu of planting or replacement requirement.

G. Enforcement.

1. This chapter shall be enforced by the Borough Code Enforcement Officer during the course of ordinary enforcement duties.

H. Violations and Penalties.

1. Any person(s) who is found to be in violation of the provisions of this chapter shall be subject to a fine of $550 per tree for each violation and the Fee in Lieu of Planting Per Removed Tree, as stated in Section 1632.2.E.8.

Section III. Section 1632.1 of the Code, entitled "Public Art" is hereby amended to read as follows (additions are shown as thus; deletions are shown as ~~thus~~);

RESOLUTION #2026-171

RESOLUTION AUTHORIZING THE ADOPTION OF THE 2026 MUNICIPAL EMERGENCY OPERATIONS PLAN

WHEREAS, P.L. 1989, c. 222 mandates the development and approval of Emergency Operations Plans for all municipalities, counties and the State; and

WHEREAS, an Emergency Operations Plan enables the Borough of Flemington (the "Borough"), in coordination with its Office of Emergency Management, to prepare for and manage emergencies; and

WHEREAS, the Borough submits its Municipal Emergency Operations Plan through the Hunterdon County Office of Emergency Management to the New Jersey Office of Emergency Management for review and approval, with recertification required every two (2) years; and

WHEREAS, the Borough Office of Emergency Management has presented the 2026 Municipal Emergency Operations Plan to the Mayor and Common Council and requested its formal adoption;

NOW, THEREFORE, BE IT RESOLVED by the Mayor and Common Council of the Borough of Flemington, in the County of Hunterdon, State of New Jersey, that the Borough hereby adopts the 2026 Municipal Emergency Operations Plan as presented, including its annexes, and authorizes its submission for review and approval.

BE IT FURTHER RESOLVED that the Municipal Clerk is authorized and directed to send a certified true copy of this Resolution to the Hunterdon County Office of Emergency Management Coordinator.

RESOLUTION #2026-172

RESOLUTION TO AWARD THE FLEMINGTON WELL – SCADA IMPROVEMENTS BASE BID TO NB CONTROLS INC., 20 N. HOCKEY DR, COLUMBUS, NJ 08022 FOR THE SUM OF $139,000.00

WHEREAS, the Borough of Flemington advertised and received bids for the Flemington Well – SCADA Improvements; and

WHEREAS, three (3) bids were received as follows:

Bidder	NB Controls Inc., 20 N. Hockey Dr., Columbus, NJ 08022	Thomas Controls, Inc., 18 Connerty Court, Suite C, East Brunswick, NJ 08816	Advanced Control Systems, 12 Champions Way, Manalapan, NJ 07726
Base Bid	$139,000.00	$495,800	$350,000.00
Alternate Bid	N/A	$259,800	$155,000.00
Base Plus Alternate Bid	N/A	$755,600	$505,000

WHEREAS, bids have been reviewed by the Borough Engineer, Robert Martucci, and the Borough Attorney Christopher Corsini and it has been determined that the bid submitted by NB Controls Inc., 20 N. Hockey Dr., Columbus, NJ 08022 is the lowest responsive bid for the Flemington Well – SCADA Improvement Base Bid in the amount of $139,000.00, and;

WHEREAS, the Borough reserves the right to award either the Base, Base plus Alternate Bid or to reject all bids and;

WHEREAS, the Borough of Flemington CFO has certified that there are sufficient funds provided by the Borough for the contract work for the Base Bid.

NOW THEREFORE, BE IT RESOLVED by the Mayor and Council of the Flemington that the Contract for Flemington Wells – SCADA Improvements Base Bid be awarded to NB Controls Inc., 20 N. Hockey Dr., Columbus, NJ 08022 in the amount of $139,000.00 subject to the following conditions:

1. The Contract is awarded as a unit price bid. Contract and final payment will be based upon actual quantities installed at the unit price bid, as outlined in the Plans and Specifications prepared by Robert Martucci, PE Borough of Flemington Project Engineer.

2. The unit price contract is approved by United States Department of Agriculture.
